Storage expectations, expanded

Spacious 18L interior for easy transport of an up to 16-inch notebook, plus multiple interior and exterior compartments and side pockets to carry everything you need.

Cool, adjustable comfort

Extensive back mesh offers breathability , and an adjustable chest strap prevents slippage to keep the backpack secure.

Built-in luggage strap

A quick-fix design makes it easy to secure the Ranger Gaming Backpack 16 to other travel cases. Concealed rear zip pockets allow for quick storage of phones and other small items.

2 extra rear pockets

Concealed rear zip pockets allow for quick storage of phones and other small items.

Bring it all

New gaming gear is always around the corner, so we built the ROG Ranger Gaming Backpack 16 with expandability and versatility in mind. This 18 -liter capacity bag can easily stow a 16-inch laptop in its largest main compartment, with room to spare for a gaming keyboard, mouse, headset, and any power cables you need. No matter how large your tech collection grows, this bag has your back.

Hidden secrets

Flexibility is king when traveling, and the Ranger Gaming Backpack 16 is ready for any situation. Zippers on both sides of the bag can open to turn the side pockets into instant umbrella or water bottle storage, and a slot above the main flap easily holds smaller accessories. For more valuable items, a concealed rear pocket gives you peace of mind when you’re out in the town.

Expansive Storage

The interior layout of the Ranger Gaming Backpack 16 is designed to optimize storage. Multiple organizers and pockets keep smaller items secure in transit, but the main compartment is the star of the show. Able to easily handle a 16-inch laptop, its power supply, a tablet, and all of your key peripherals, the Ranger Gaming Backpack 16 is the dream companion for a gamer constantly on the move.

Intelligent Organization

Keep everything in its place with thoughtfully placed dividers and pockets throughout the Ranger Gaming Backpack 16. Keys, power cords, snacks, and larger peripherals all easily find a home thanks to the bag's abundant pockets.

Tailored comfort

Electronics can feel a little heavy after a long day of traveling, so we've engineered the Ranger Gaming Backpack 16 with a few extra tricks to lighten the load. This includes side-mounted collars that conform to the shape of your back and reduce side-to-side motion as you walk, keeping your bag centered to you. It also features extensive mesh on the backrest and straps for more cooling and breathability, and an adjustable chest strap to keep the bag securely in place on any body type.

Built to travel

Take the weight off on longer trips thanks to a built-in luggage strap on the Ranger Gaming Backpack 16. These straps allow you to easily and securely mount your backpack on top of standard rolling luggage in two different ways, letting you cross long distances without being weighed down at the end of a long travel day. Dual adjustable reflective straps keep you in view when exploring late at night, and high strength 1260D polyester can easily weather the bumps and scrapes of traveling. If you happen to get caught in a patch of bad weather, the water repellent PU leather of the Ranger Gaming Backpack 16 will help keep your electronics protected.
