Bosch UniversalHumid Resistance (Pin) Wood

Model: 0603688001

Manufacturer: BOSCH

EAN: 4059952648293

Product Code: 1482424

R1,711

Intuitive, precise checks on wood moisture content

The UniversalHumid is the right choice when accuracy on wood moisture checks is a must. With two pre-programmed wood groups that offer broad measuring ranges (A: 7.1% - 74.7%; B: 6.4% - 61.9%), the wood moisture meter achieves even more exact results. Measurement is easy by just sticking the two measurement pins into the wood. From checking the moisture of firewood for emission reduction, pre-checking before painting, checking on furniture construction, e.g., to avoid deformation, mould prevention, installing parquet flooring, or checking wooden houses or trailers before purchase.

Difficulty level

Easy

Focused on simplicity
