RGB BACKLIGHT

The keyboard is equipped with phenomenal RGB backlight, having 11 modes and allowing you to change the speed and intensity of lighting effects. Thanks to this, you can easily adjust the device to your preferences and the set-up of your gaming station. Additionally, the user mode allows you to select one of eight predefined RGB colours for each of the seven keyboard zones.

MEMBRANE MECHANISM

Rhod 300’s quality is guaranteed by a durable membrane mechanism. Short key travel and only 55 grams of actuation force needed are the features that will satisfy even the most ambitious players. What's more, the response time of 8ms will ensure that nothing will surprise you on the battlefield,

leaving your opponents far behind.

FUNCTION KEYS

For maximum convenience, the keyboard is equipped with 12 multimedia keys located on the F1 - F12 buttons. Thanks to this, you can easily change the volume or open applications such as e-mail or calculator. What's more, a dedicated button will allow you to conveniently lock the Windows key and protect yourself from accidentally minimizing the game.

MADE WITH GAMERS IN MIND

The Anti - Ghosting function guarantees a perfect reading of up to 19 keys pressed at a time. The keyboard is also equipped with the function of replacing the arrow keys and WASD, thanks to which you can adjust the keyboard to your preferences during the game. Set your own rules!

STABILITY AND COMFORT

The Rhod 300 RGB is equipped with non-slip rubber feet, ensuring that the keyboard will not slide all over during the game. In addition to stability, comfort is also important, therefore the keyboard has foldable legs which will allow you to adjust the angle to your needs.

SPLASH RESISTANT

The keyboard is fully splash-proof, so you can put your favourite drink on the stand without worries. Safety and failure-free operation, you can bet on that!
