A sophisticated hand flatterer: the surface of the protective cover in silky rubber-oil finish looks and feels good

## **Anti-stick surface**

Non-sticky: special rubber oil surface prevents crumbs from sticking to the phone cover and allows the phone to be removed from trouser pockets, jacket pockets and handbags in one go

## **Protected side buttons**

A clean sweep: The mobile phone cover also covers the side buttons - this protects against dust and enables a perfect pressure point

## **Custom-fit**

Tailor-made mobile phone case: protects what needs to be protected and leaves free what should remain free, e.g. loudspeaker and charging socket

## **Scratch-resistant**

Scratch-resistant back cover: rubber-oil finish exterior is resistant to keys, pens and coins in trouser, hand and jacket pockets

## **Camera protection through raised edges**

Simply lay it down carefree: the raised edges of the phone case provide protection for the protruding camera lenses without compromising the quality of the photos

## **Edge protection for the display**

Additional protection for the mobile phone display: The mobile phone cover has a raised edge all around - so the touchscreen is better protected

## **Soft inside lining**

Softly bedded: soft inner lining to protect the sensitive back of the smartphone
