

Hama Vario 67 mm

Model: 79167

Manufacturer: HAMA

EAN: 4007249791672

Product Code: 1484766

R2,177

- Variable neutral-density filter ND2-400;
- To reduce light in case that it is too bright;
- With rotating front lens;
- Exposure correction between +1 and +8 stop values possible.

One neutral-density filter for several fields of application:

- Allows the photographer to use large apertures while taking pictures outside = background gets hazy;
- In case of exposure times longer than 1/30 seconds, water "flows", if they are shorter, it freezes to ice.

Consumer Advice:

To avoid vignetting, this filter has a superstructure of the front lens, i.e. the diameter of the front lens is larger than that of the rear lens. Please note that a lens cap with 72 mm is thus required.
