

Bosch PBS 75 A Belt sander Black, Green 710 W

Model: 06032A1000

Manufacturer: BOSCH

EAN: 3165140633147

Product Code: 1484923

R3,357

Comfortable sanding and a high removal rate for larger flat surfaces

Tackle tough sanding projects with the PBS 75 A belt sander and enjoy comfortable handling with highly effective material removal. Its powerful 710 W motor delivers fast progress on larger flat surfaces. Experience ideal handling thanks to a removable auxiliary handle. Belts are easily changed and the automatic belt system keeps them centred during operation. Perfect for preparation or restoration tasks, it is suitable for use on a wide range of materials from wood to metal including removing paint and varnish. A Microfilter dust box reduces dust and aluminium components provide robustness.

Changing accessories quick and easy

SDS is an accessories mounting system that enables quick and easy keyless accessory changes and ensures the direct transfer of a tool's power, providing the full benefit of its potential, for efficient work and faster results.

Secure tool control at all times

The lock-off switch is a security measure that prevents the tool from being accidentally activated. A trigger-flip switch ensures that the tool is safely locked out of operation when not in use.

Smooth and easy work

Bosch Low Vibration is a shock-absorbing and vibration-dampening feature designed to reduce user fatigue for comfortable, smooth, and easy work in extensive or difficult applications.

Reduce dust for a cleaner working area

During sanding, dust is automatically drawn into the removable Microfilter dust box for a noticeably cleaner working area. The tool can also be attached to a vacuum cleaner.

For self-centring of the sanding belt

The automatic belt system centres the sanding belt during operation, saving adjustment time and ensuring the abrasive is optimally positioned.

Quick and easy sanding belt changes

Simply lift the clamping lever and tension on the sanding belt is released, making it quick and easy to remove and replace.

For optimal manageability when working

The auxiliary handle provides a secure grip of the sander for optimal handling. It can be removed when close work near edges and corners is required.

Superior grip for comfort and control

The softgrip zone provides comfortable tool handling and superior control, a useful feature in applications requiring extensive tool operation.
