Easily connect a DisplayPort source to an HDMI display.

The Manhattan Passive DisplayPort to HDMI Adapter establishes a fast, simple and convenient link between newer DisplayPort-equipped sources and existing HDMI displays. This passive adapter requires DP++ (dual-mode) video/graphics cards to regenerate the signal and ensure the best connection to an HD display. The adapter is easy and quick to install and requires no complicated configuration or setup. The Manhattan Passive DisplayPort to HDMI Cable Adapter is sure to help users fully realise the investment, value and service life of HDMI displays. It offers a passive, compact and integrated solution that eliminates unnecessary cables, tangles and clutter to keep installations and workspaces orderly.
