The Wireless and Stylish Ergonomic Solution

Make the most of the hours you spend working on your computer with a mouse. The Trust Verro Ergonomic Wireless Mouse is the vertical solution to wrist and arm strain and pain. With its unique shape and various functional features, the Verro is the smart choice when you need to operate a mouse for long hours.

Uniquely Shaped

Over long periods of use, the tiny movements you make with your mouse will make a great difference to your body. Designed at a unique vertical angle, the Verro brings your wrist into an

optimal position of 60° so that those movements are carried out in your body's most natural posture. Furthermore, it's lightweight, shaped to fit all sizes of hands and boasts rubber coating to give a perfect grip. Working with Verro will feel like a real relief.

Don't Forget about the Looks

Choosing a mouse that's better for your posture, doesn't have to mean compromising on looks. The Trust Verro Ergonomic Wireless Mouse has plenty of both; health benefits do come in a stylish design. With a smooth design and soft round edges in black, this is the ergonomic mouse that you won't want to hide in your desk drawer.

Work Smart: Wireless Control

Don't let cables get in the way of your workflow or influence your working position. The 10 meter wireless range of the Verro guarantees optimal freedom. Simply plug in the micro-receiver to use the mouse and store it in the special compartment in the mouse when your work is done. This handy mouse also features an on/off switch to save on energy by turning it off when you are not using it. The Verro is the definition of smart working!
