

Lindy 30m Fibre Optic USB 3.0 Cable

Model: 43345

Manufacturer: LINDY

EAN: 4002888433457

Product Code: 1488639

R6,919

The Lindy Fibre Optic USB 3.0 Cable supports far longer distances than standard copper cables whilst retaining SuperSpeed transfer rates of up to 5Gbps. Up to 3 cables can be connected in series up to a length of 90m. In addition, a combination with the 100m version No. 43346 is possible.

A lighter and more flexible construction makes this cable simple to install with cable trays and through conduits, whilst low RFI/EMI ensures that the cable can be installed in the most sensitive of environments. It supports isochronous data transfer, improving the timely delivery of data packets, which makes it ideal for synchronizing video and audio streams. This device is fully compatible with, and can be used to extend signals from, 4K USB 3.1/3.0 webcams and video conferencing systems.

For added convenience the Fibre Optic USB 3.0 cable also features a USB Type A cable for power supply via the USB 3.0 bus with 5V and 900mA.

Please note: this product is also backwards compatible with USB 2.0 devices.
