Note down every creative idea

High Precision

Note down every creative idea

The new ASUS Pen 2.0 is the perfect match for your compatible ASUS touchscreen devices, giving you the ability to write, draw or add markup in any supported app. Built-in Microsoft Pen Protocol (MPP) 2.0 technology offers ultra-low latency and fast response, allowing ASUS Pen 2.0 to accurately and effortlessly reproduce the finest lines and broadest brush strokes. A 4096-level pressure sensitivity and 5-350 gram pen tip force1 enables you to create detailed notes or drawings that accurately capture your thoughts.

4 Pen Tips

A natural writing feel

ASUS Pen 2.0 is precisely calibrated to detect all the subtle variations and nuances of writing and

drawing. It comes with four interchangeable pen tips — 2H, H, HB and B — for differing frictional properties and hardness to suit any drawing or writing style. Using ASUS Pen 2.0 feels as natural as putting pen to paper.

Design

Exquisitely crafted

The modern and chic ASUS Pen 2.0 features a smooth finish and drop-prevention design that provides a satisfying grip when in use. For added convenience, two side buttons and a top button enable multiple shortcuts to various functions.

Charging & Bluetooth Pairing

More functions with a press of your thumb

ASUS Pen 2.0 offers convenient USB-C® charging, with a quick 30-minute full charge getting you over 140 hours of use2. An LED indicator shows battery life and device pairing status. The Bluetooth feature also allows you to easily capture a screenshot, jump to the next page of a presentation, or launch Microsoft Whiteboard with a click of a button.

LED Indicator

Check status at a glance

ASUS Pen 2.0 has an LED indicator to show battery life and Bluetooth status. Red indicates a low battery, orange means charging is in progress, and blue shows Bluetooth connection status.
