USB Type-C Multi-Charging Splitter Cable - Charge Two Devices from a Single USB-C PD Port

Power more and carry less with the Manhattan 2-in-1 USB-C Charging Cable. It lets you charge two devices like a laptop and a tablet or two phones from a single USB-C port of your wall or car charger.

Smart Power Distribution for Efficient Charging

Designed to maximize convenience, this cable delivers up to 100 W when charging a single device, providing ample power for high-demand electronics such as MacBooks. When two devices are connected, the intelligent power allocation supplies 70 W and 28 W respectively.

Perfect for Business Trips and Everyday Use

Its ability to charge two devices at the same time makes it a travel essential, allowing you to keep your laptop and phone powered up without the clutter of multiple cables. The lightweight and portable design means you can easily slip it into your bag and stay connected wherever you go.

Full Compatibility with all USB-C Devices

This cable is compatible with a vast range of USB-C powered devices, including the MacBook Pro®, iPad® Pro, Chromebook, gaming controllers, Amazon Kindle, GPS devices, and more. With support for USB Power Delivery (PD 3.0), it delivers fast, reliable charging that meets the demands of modern

devices.

Built to Last with High-Quality Materials

Crafted with pure bare copper wiring, it ensures maximum conductivity and efficient power transfer. The corrosion-resistant contacts provide long-lasting reliability, the braided, tangle-resistant jacket enhances durability and flexibility, and the sturdy aluminum boot offers superior strain relief
