Compact Charging Power

The Fold ‘n’ Go GaN Charger 65W is built for convenience and performance. Its compact size, made possible by GaN technology, allows you to pack powerful charging capabilities into a sleek, travel-friendly form. The foldable plug ensures it fits easily in your bag or pocket without snagging on cables or other accessories, making it ideal for commuting, business trips, or holidays. Whether you're powering up a laptop, tablet, or smartphone, this charger keeps you going wherever life takes you.

GaN Technology: Small Size, Big Power

GaN (Gallium Nitride) technology makes this charger more efficient, more compact, and cooler-running than traditional silicon-based chargers. This means faster charging speeds and a smaller footprint without sacrificing performance. Delivering up to 65W total, the Fold 'n' Go can easily charge demanding devices like USB-C laptops while still supporting fast charging for your phone or tablet. With smart power management and PPS support, it adjusts dynamically to suit your device's needs.

Dual USB-C for Simultaneous Charging

No more choosing between your devices - charge two at once with dual USB-C ports. The Fold ‘n’ Go supports USB Power Delivery 3.0 and PPS on both outputs, ensuring fast and optimized charging whether you're powering a MacBook, iPad, Samsung Galaxy, or any other USB-C-enabled device. This charger intelligently distributes power between connected devices, so you get the best performance possible without overheating or overloading. It's fast, efficient, and built for the demands of modern multi-device lifestyles.
