

Trust Halyx USB 3.2 Gen 1 (3.1 Gen 1) Type-C 104 Mbit/s Aluminium

Model: 24191

Manufacturer: TRUST

EAN: 8713439241914

Product Code: 1496601

R1,489

Compact, aluminium 3-port USB hub with (micro) SD card reader and USB-C connection

Connectivity

The Trust Halyx USB & Card Reader Combo comes to the aid of anyone who needs to transfer data fast, while connecting their most important peripherals to their laptop. This small hub allows you to connect up to three USB devices to their PC, while only using a single USB-C port. And it comes with a fast (micro) SD card reader to boot.

Transfer Data Fast

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Thanks to the three USB 3.2 (Gen 1) connections of the Trust Halyx, you can easily plug in three different external hard drives. With transfer speeds of up to 5Gbps, it finishes backing up large files before you return to your desk with a fresh coffee. And thanks to the integrated (micro) SD card reader, which supports SD, SDHC and SDXC cards of up to 2TB at a maximum transfer rate of 104MB/s, it's a great solution for photographers and videographers, too.

Your Compact King

Due to the small size, it's extremely tempting to take the Trust Halyx with you on your travels. That's why this hub is made of durable die-cast aluminium, which means it's protected from damaging when you're on the go. And thanks to the short USB-C cable, both your desk and laptop bag stay clutter free.
