Structured and customizable storage

The SystemBox can be used as perfect storage for individual items. The box is expandable with compatible accessory boxes of different sizes and a lid box. The SystemBox can be used separately or different SystemBoxes can be attached to one another and connected together. With the integrated vertical and horizontal handle the SystemBoxes are easy to transport to any workspace.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
