The Shadow Master Robot with Mini Creature is a truly multifunctional beast! Its upper body rotates, and the arms and legs are movable. His ready-to-fire cannon can reach any opponent, while the arrows from its back quiver are just waiting for their next target. The robot also has special functions. The crystals on the shoulders and chest can be repositioned and there's a hiding place behind the chest flap!

The Mini Creatures from the Shadow World are causing a real stir in Eldrador! They've even taken over the Master Robot. The Mini Creature can take a seat inside the robot and direct its steps from there - and even move the robot's arms. I wonder what they are all up to? One thing is for certain -
