

Hama 00176646 security camera Bullet Outdoor 1920 x 1080 pixels

Model: 00176646

Manufacturer: HAMA

EAN: 4047443514974

Product Code: 1497978

R1,999

The surveillance camera gives you a clear view of your property from garages to horse stables - and in razor-sharp, Full HD quality. Thanks to motion detectors, live views and night vision, you can see your house and property via your smartphone - for a safe, secure home.

Motion detection

WLAN surveillance camera responds to movements: if the camera detects movement, you can be notified via push notification or automatically trigger recording

Infra-red night vision

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Detailed images in the dark: during the night, infra-red night vision means you can still rely on camera surveillance

2-way audio

Communication from anywhere: the microphone and speaker allow contact via the WLAN camera and smartphone or tablet, like an intercom system

Recordings in Full HD 1080p

Razor-sharp images: whoever is creeping around your property, with images from the outdoor camera in Full HD 1080p, you'll spot everything and everyone

MicroSD card slot

More local memory completely without the cloud thanks to the microSD card slot: memory cards of up to 128 GB offer plenty of space for extensive video recordings, so no surveillance material gets lost

Easy operation from anywhere via the app

Whether it be the sofa or the sun lounger: with the Hama Smart Home app and WLAN camera, you have control over your property, garden and front door at all times, no matter where you are

Convenient voice control

Whether it be Amazon Alex, Google Assistant or Apple Siri: easily display the live image from the WLAN outdoor camera on devices with a screen using voice controls

Smart Home without a gateway

Our surveillance camera works without any gateway (hub): you don't need an additional device, and you save on extra costs since the camera establishes a direct WiFi connection with the router

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice.
