R2,700

NFINITY ELEGANCE, COOLING MASTERY

Combining cooling performance, easy installation, and aesthetics all in one. The Prime LC 240 ARGB features a specially designed CPU contact area that can effectively cool the CPU and provide stable performance. At the same time, it comes with pre-installed ARGB fans that optimize the user's PC DIY experience. A single cable connects the lighting and fans, making cable management much easier. The customizable infinity mirror lenses in the water block give the PC build more versatility, empowering you to create diverse styles.

Specially designed CPU contact area

The larger contact area allows for more efficient heat transfer from the CPU to the cooler. This helps ensure the CPU maintains optimal operating temperatures even under heavy workloads, without experiencing thermal throttling or performance degradation.
