R1,229

Connect 4 USB Type C devices to a single USB Type C port

The Lindy 4 Port USB 3.2 Gen 2 Type C Hub provides 4 USB Type C 10 Gbps SuperSpeed ports for connecting USB Type C peripherals to a USB Type C equipped computer. As part of the USB 3.2 Gen 2 specification, 10Gbps bandwidth provides lightning fast data transfers between host and mass storage devices. This hub is also backwards compatible with USB 3.2 / 3.1 Gen 1 / USB 3.0 and USB 2.0.

The hub is powered by the USB Bus, while it's functional, stylish design with integrated cable makes it the perfect companion for mobile devices. The Type C connectors reversible design was developed to find a connection regardless of which way the cable is inserted into the port and with Plug & Play installation, no drivers are required, therefore this hub can be installed with minimum difficulty, ideal for both professional and first time users.

*Please note that USB Power Delivery and DisplayPort Alternate Mode (Video) are not supported.
