

MAXHUB XBar V50 Dual-eyes 4K Microsoft Teams Rooms MDEP Videobar

Model: V50 KIT

Manufacturer: MAXHUB

EAN: 6927433608150

Product Code: 1499187

R55,604

The MAXHUB XBar V50 Kit is a Teams-certified videobar built on MDEP Android, designed for small to medium rooms. It features 100MP dual-lens camera system, 12 beamforming microphones, AI-enhanced audio, and FlexMount for easy installation—delivering secure Teams integration, remote management, and simplified IT deployment.

POWERED BY MDEP ANDROID FOR TRUSTED, CLEAR, AND SCALABLE MEETINGS

The MAXHUB XBar V50 Kit is a premium Teams-certified videobar powered by Microsoft's MDEP Android platform, delivering advanced AV performance, enterprise-grade security, and streamlined IT management for small to medium-sized meeting rooms.

Built on Microsoft's certified security architecture, it offers robust protection with hardware attestation, verified boot, encrypted data, and monthly security updates. Its Microsoft-approved SoC ensures stable performance and long-term Android OS support.

EVERY DETAIL, EVERY ANGLE

Our sophisticated dual-eye camera system delivers exceptional image quality for meetings, combining 12 high-definition lenses with innovative stitching to achieve 100MP resolution and 2400 TV lines. With its ultra-wide 125° horizontal field of view and advanced technology, it ensures comprehensive coverage and clear video, capturing every detail so users never miss anything critical.

AI-POWERED VIDEO

- AUTO FRAMING

Focus on the conversation, not the camera. Intelligent AI framing technology detects and tracks participants, automatically adjusting the view to keep everyone centered and clearly visible.

- SPEAKER TRACKING

Enjoy a more natural and engaging meeting experience with speaker tracking. Real-time tracking of the active speaker ensures the camera always focuses on the right person, making virtual meetings feel more like in-person conversations.

- INTELLIGENT FOCUS

Intelligent focus technology enables individual close-ups for multiple participants simultaneously, delivering an immersive in-person experience.

- SMART GATHERING

Displays individual views for each participant while keeping a panoramic overview of the room. Both personal interactions and the full meeting context are visible at the same time.

- VIDEO FENCE

Take command of your meeting view with our innovative Video Fence feature. Precisely control the camera's field of view, ensuring AI tracking and focus are only applied within the designated area. Customize presets, auto-framing, speaker tracking, and other AI functions for a truly tailored meeting experience.

EVERY WORD MADE CLEAR

Featuring 12 intelligent beam-forming microphones with an 8m pickup range and dual 15W speakers equipped with quad bass units, this system delivers precise sound tracking, crystal-clear communication, and rich, balanced audio. It transforms any space into a professional meeting

environment with exceptional clarity and immersive sound quality.

EVERY VOICE, EVERY CORNER

Transform your meetings with our advanced 12-microphone beamforming array which precisely tracks voices across the room, ensuring every word is captured with crystal clarity from up to six meters away. Dual 15W speakers, enhanced with quad bass units, deliver rich, balanced, and room-filling sound, creating a truly immersive and connected meeting experience where every voice is heard and every idea resonates.

NO NOISE, JUST TALK

- AI NOISE REDUCTION

AI noise reduction blocks out keyboard clicks and background sounds, so your meetings stay focused on real voices. No more distractions — everyone can follow the conversation with ease.

- ECHO CANCELLATION

Echo cancellation removes reflected sounds, even in glass meeting rooms, so your voice always comes through clean. Every word is easy to hear, making conversations smooth and natural.

- NOISE SUPPRESSION

Wherever you are, AI noise suppression keeps unwanted sounds out and your voice bright and clear. Speak confidently anytime, anywhere.

- AUTOMATIC GAIN CONTROL

Automatic Gain Control (AGC) ensures there's no need to adjust the volume during meetings — the system does it for you. Everyone's voice is heard perfectly, making communication effortless.

- AUDIO FENCE

Audio Fence technology creates a virtual boundary around the microphone's pickup area, blocking out unwanted noise from outside the meeting zone. Only voices within the defined space are captured, ensuring clear and undisturbed discussions even in busy or noisy environments.

FLEXMOUNT - FLEXIBLE MOUNTING, FEWER TOOLS, LESS HASSLE.

FlexMount combines sleek design and easy installation for professional, adaptable meeting spaces with minimal hassle.

INTUITIVE INSTALLATION

Stick, punch, and mount for rapid, precise installation. Our drilling card guarantees perfect hole placement in minutes, eliminating guesswork. Combined with tool-light design, you'll save time, reduce labor, and get connected faster.

INTEGRATED SCREW MOUNT DESIGN AND EFFORTLESS SCREWING

Paired with an integrated screw mount design, the bracket clicks into place with a quick manual twist — no screwdriver or extra help needed; you've got it covered.

FLEXIBLE CABLE ROUTING

The design includes built-in cable management with exits at the top, bottom, and rear, ensuring a clean and organized setup regardless of mounting position.

3-IN-1 MOUNTING SOLUTION

Designed for wall, desk, or display installation, with adjustable mounting angles for versatile positioning on desktops, above or below TVs, or along sliding rails.

STATUS AT A GLANCE

White, green, or red LEDs clearly show if the device is working, busy, or off — cutting out the guesswork.

Eco-Friendly Inside Out

Inspired by paper, designed for tomorrow. Crafted entirely from renewable paper with zero plastic, our packaging reflects a lasting commitment to sustainability — minimizing impact while maximizing value for your business and the planet.

PEACE OF MIND, 3-YEAR GUARANTEED
