Dominate race tracks with EVO Racing 31U Leather: a “U”-shaped wheel rim (12.2” / 31 cm in diameter) that’s amazing for intense single-seater racing, endurance racing, and other types of racing simulation. Take on every turn with ease thanks to the short paddle shifters featuring Mag-Shift sensors and adjustable positioning for precise, responsive gear shifting.

FINE-TUNED HANDLING

Feel every track curb in your hands thanks to its slim, lightweight (2.6 lb / 1,180 g) wheel rim wrapped in perforated synthetic leather for remarkable comfort and pure sensations. Adjust the thumb button modules to suit your preferences for optimal handling.

PREMIUM, SPORTY DESIGN

Enjoy an extremely high-quality design, with premium materials including brushed aluminum for the central faceplate, giving EVO Racing 31U Leather outstanding rigidity while also keeping it lightweight. Its rim, embellished with Kryptonite yellow stitching, ensures durability and provides a distinctive modern look.

DETACHABLE EVO HUB

Elevate your racing experience with the EVO Racing range. Set your own rules by combining the detachable central hub with wheel rims and paddle shifters of different sizes, shapes and finishes, as well as with fully configurable analog paddle shifters (sold separately) to dominate any track in the vehicle and racing discipline of your choice.

TOTAL CONTROL

Stay in control on the track thanks to the EVO Racing hub’s 25 action buttons, including 4 rotary encoders and an ergonomic D-pad. Its 7 LEDs* provide race information and RPM, with the ability to switch between two modes to adapt to the engine speed of different types of vehicles.

MAXIMUM COMPATIBILITY

Access the entire Thrustmaster ecosystem: two Quick Release holders are included, making EVO Racing 31U Leather compatible with all existing and future Thrustmaster Force Feedback racing
