R2,726

What you see is what you get

Heart Dock 2300 brings together a wide range of ports in one compact DockingStation. With dual HDMI®, multiple USB ports, Ethernet, and charging support, it covers everyday work scenarios without overcomplicating things. Each connection has a clear purpose, making it easy to build a functional workspace.

Dual 4K!

2 HDMI® ports mean up to 2 external displays. You can run dual 4K at 60 Hz or a single display at up to 4K at 120 Hz. This gives you more screen space for multitasking, presentations, or creative work.

LCD TFT: the most beautiful letters

The built in TFT display gives you real time insight into your setup. It shows useful information such as power usage and display status, so you always know what is happening.
