Featuring a soft-touch silicone exterior, this USB-C cable combines durability with a comfortable user experience. The flexible construction helps prevent tangling and makes the cable easy to handle, pack and store. Built with robust aluminium connector housings and high-quality materials, it is designed to withstand frequent use while maintaining dependable charging and data transfer performance.

USB-C Data Transfer

More than just a fast-charging cable, this USB-C to USB-C cable supports data transfer speeds of up to 480Mbps for efficient file synchronisation between compatible devices. Transfer photos, videos, documents and other content quickly and reliably. Compatible with a broad range of USB-C laptops, tablets, smartphones, power banks and accessories, the 120cm cable length provides practical reach without unnecessary cable clutter.
