R839

Product information "USB 2.0 audio adapter, USB-A/M to 2x 3.5 mm/F, virtual 7.1 sound effect, black" from LogiLink

LogiLink USB sound card provides an easy way speaker, microphone, headset or IP to connect your phone with your PC. It is connected as with the USB port on your computer and supports plug and play. The adapter simulated a surround sound with the integrated 7.1 3D sound effects. The status of the connected devices can be monitored by using the LED indicator lights.
