A high-speed cable that delivers high-definition performance - with no tangles

HDMI has become the standard digital connection, delivering the highest-quality audio and video signal over a single cable. The Manhattan High Speed HDMI Cable with Ethernet is designed and carefully constructed to meet the evolving needs of the high-definition marketplace. This shielded cable provides the highest resolution possible at 4K x 2K, an audio return channel and a bandwidth of 10.2 Gigabits per second at 340 MHz. A high-quality cable, it provides ultra-high-definition video and multichannel, digital audio with increased performance characteristics and greater accuracy. Expanded features include Internet connectivity for home entertainment devices using a single HDMI connection. Plus, this cable's unique design makes it easy to handle and shape without worrying about snags and tangles, and it resists cuts and nicks.
