- For great effects without editing
- Variable neutral-density filter ND2-400
- To reduce light in case that it is too bright
- With rotating front lens
- Exposure correction between +1 and +8 stop values possible
- One neutral-density filter for several fields of application:
- Allows the photographer to use large apertures while taking pictures outside = background gets hazy
- In case of exposure times longer than 1/30 seconds, water "flows", if they are shorter, it freezes to ice.
