

Thrustmaster T128 Black USB Steering wheel + Pedals Analogue PC, PlayStation 4, PlayStation 5

Model: 4160781

Manufacturer: THRUSTMASTER

EAN: 3362934111564

Product Code: 1504730

R4,050

In a nutshell

Feel racing sensations through the wheel thanks to HYBRID DRIVE Force Feedback, enjoy a fully immersive experience and build up your driving skills. Optimize your racing lines, control your drifts and outmaneuver your rivals with the T128 and its T2PM pedal set — both of which feature reliable, ultra-precise magnetic technology.

UNDER THE HOOD

IMMERSIVE FORCE FEEDBACK

The HYBRID DRIVE technology in the Force Feedback system lets gamers experience all the fun, intuitive sensations of driving. The weight of each vehicle, bumps and impacts, loss of tire grip in corners, and road surface types can all be felt through the wheel, for immersive racing that will awaken your driver instinct.

MAGNETIC PADDLE SHIFTERS

Thanks to H.E.A.R.T magnetic technology, the paddle shifters allow for super-fast gear shifting (30-millisecond response time) with clear and precise activation, for sporty performance and while avoiding driving errors.

This patented technology, delivered via a contactless, frictionless magnetic system, provides outstanding durability over the long term.

ENGINE SPEED LEDS

The 4-color LED strip lets you monitor the engine speed without taking your eyes off the road. The LEDs flash when you need to shift to a higher gear, allowing you to optimize your gear shifting. The list of compatible games on PlayStation and PC is updated regularly on the Thrustmaster technical support website.

RESPONSIVE, VERSATILE DESIGN

The round, lightweight wheel rim gets the most out of all the Force Feedback system’s power, for maximum velocity. Its 270° to 900° angle of rotation automatically adjusts based on the vehicle being used in the game, for driving adapted to all vehicle styles (GT, rally, F1, trucks). Thanks to the 13 action buttons on the racing wheel, you won’t have to use a gamepad.

ATTACHMENT SYSTEM FOR DESKS AND TABLES

The included clamp-based attachment system is easy to mount, and you don’t need any tools to quickly set up your racing wheel before gaming sessions, and store it afterwards if necessary. The

clamp fits desks and tables up to 2.2 inches / 5.5 cm thick.

MAGNETIC PEDAL SET

The T2PM magnetic pedal set included with the racing wheel offers amazing thousandths-of-a-second precision for crisp acceleration and well-proportioned braking.

The T2PM pedal set delivers a completely smooth experience without any risk of losing precision like more traditional pedal sets equipped with potentiometers, making it a powerful and reliable aid for improving your driving skills.
