Connect your Android smartphone/tablet and the latest generation iPhone/iPad to the ACT 20W USB Fast Charger to charge your device up to 50% in just 30 minutes.

Power Delivery PPS

The AC2122 charger supports Power Delivery PPS (Programmable Power Supply). PPS ensures the most efficient charging of your device by adding additional charging profiles. Charging is dynamically adapted to the needs of the device. Efficient charging generates less heat and prolongs battery life.

Quick charge

The USB-A port supports the fast charging Quick Charge 3.0 protocol and provides maximum 18W.

GaNFast technology: compact yet powerful

The AC2122 USB charger features fast charging GaNFast technology. This means that Gallium Nitride is used as the semiconductor. This results in efficient and high power in a compact housing with minimal heat dissipation.
