UltraBoard 955 V2 Numeric

The perfect solution if you regularly enter numbers.

Complementing you perfectly

The UltraBoard 955 V2 Numeric perfectly complements your compact keyboard if you regularly enter large quantities of numbers. To balance out the muscle activity on both hands, you can easily alternate between left or right-handed data entry, and this increases both your comfort and your productivity at your work. This external numeric keypad has a scissor mechanism, a key centre distance of 19 mm, and concave keys in white with dark lettering. All those attributes promise a comfortable and precise way of data-entry, which leads to less errors. Four practical hotkey buttons, integrated navigation keys, and an LED indicator for on and off are great features, which make the UltraBoard 955 V2 Numeric the perfect addition to your compact keyboard UltraBoard 950 V2.
