R2,414

Keep your devices powered and your workspace tidy with the 160W 7-Port USB PD Charging Station. Designed with separate compartments for each device, it helps reduce cable clutter while keeping everything organized and accessible.

Equipped with seven USB-C ports, this charging station uses USB Power Delivery (PD) 3.0 technology to provide fast and efficient charging for multiple devices at once. Two high-powered USB-C ports deliver up to 60W each, which is ideal for laptops and tablets. The other five USB-C ports offer up to 20W each, making them perfect for smartphones and other mobile devices. With a total output capacity of 160W, it keeps all your devices charged and ready to go.

Built-in protections against overload, short circuits, and overheating ensure added safety and
