Faster. Smarter. More rugged. More sustainable. More secure. And a feature set that keeps pace with evolving business needs.

Introducing the latest addition to the top-selling TC5 Series, the TC53e, TC53e-RFID and TC58e. These devices take their place alongside the TC53 and TC58, building on their feature set to meet the ever-evolving mobility needs of today's front line workers. Qualcomm's latest processor and Secure Element support improve power and security. Support for Wi-Fi 6E and second generation 5G provide the fastest wireless speeds, improving connection reliability and application performance. Short-range UHF RFID opens up a world of new use cases. Constructed with 25 percent post-

consumer recycled plastics, this device is the most sustainable TC5 Series device yet. The TC53e/TC53e-RFID/TC58e — everything your workers need to do business better.

The Most Secure TC5 Series Device Yet

A Secure Element provides the best physical security on a mobile device through a dedicated chip that prevents physical hardware attacks and unauthorized access to sensitive data.

More Processing Power

The new Qualcomm processor delivers nearly twice the power of the prior generation processor, while consuming less power.

Better Multi-tasking

Up to 8 GB RAM and 128 GB Flash, plus support for up to 2TB of onboard storage provides the memory to support virtually any application.

All the Latest Wireless Communications

With 2nd generation 5G, Wi-Fi 6E and Bluetooth 5.3, you're investing in a device that offers the latest, fastest and most reliable wireless communications.

A Larger, Higher Resolution Display

The 6-inch FHD+ bright edge-to-edge display provides a richer viewing experience and is easy to see indoors and outside. And the touchscreen works when wet and with gloves.

Enhanced Durability

These dustproof, waterproof, drop-proof and tumble-proof devices deliver the reliable performance your workers need to ensure maximum workforce productivity and return on investment.

Crystal Clear Audio

Workers can easily hear every word on every call with comprehensive voice features, including three integrated microphones, two speakers, support for wireless and wired headsets and AI neural network-based noise suppression for superior intelligibility.

Extended Future Android Support

With support for future versions of Android, you get the peace of mind that the device you purchase today will support the new features of Android, well into the future.

Zebra's Most Sustainable Handheld TC5 Series Device

The TC53e, TC53e-RFID and TC58e mobile computers are not only good for business — they are good for the environment. These devices are designed and constructed with 25 percent post-consumer recycled plastics — and without many major environmental toxins, such as mercury and PFO/PFOAs. Power consumption is reduced and battery technology is green — batteries are removable and recyclable. Battery statistics provide insight into when batteries are no longer healthy enough to hold a full charge, allowing you to use batteries longer, without risking mobile device downtime. Packaging is 98 percent biodegradable and utilizes recycled materials. And these devices can double as a workstation, PBX handset and two-way radio, reducing the number of devices you need — along with your consumption of plastics and electronics.

Split Second Access to Shared Devices with Identity Guardian

Workers can scan a barcode on their badge and simply look into the device to unlock and provision the device with all the right applications and permissions. No more worrying about shared PINs, stored login credentials — or compromised credentials that could provide unauthorized users with access to your network and data.

Unmatched Battery Technology

Get full shift power with all four battery options — the standard, BLE and wireless charge 4680 mAh batteries and the extended 7000 mAh battery. And these PowerPrecision+ batteries provide the

intelligence to identify batteries that can no longer hold a full charge and more, making battery management simple.

Reduced Total Cost of Ownership

These devices are available for sale for four years, with support available for an additional four years, providing peace of mind that the devices you buy today can serve your needs well into the future.

Flexible Scanning Options

Different use cases require different scanners. Capture high volumes of barcodes, photos and documents indoors with the SE4720. Capture barcodes, photos and documents indoors and outside — even in bright sunlight — with the SE4770. Capture barcodes in-hand to over 40 ft/12.2 m away with the SE55 with Intellifocus technology — making it easy to scan items in hand and on the top shelf of a warehouse shelf. And all options deliver split-second first time capture of virtually every barcode, regardless of condition.

Get More Details with Higher Resolution Front and Rear Cameras

The rear-facing 16 MP color rear camera captures detailed photos to document damaged items, proof of delivery and more. Place video calls with the 8 MP front facing camera for on-the-spot collaboration needed to get the job done.

Locate Lost Devices

The BLE battery works hand-in-hand with Device Tracker to enable lost or misplaced devices to be located quickly and easily — whether the device is powered on or off because the battery is depleted.

Add New Capabilities with Zebra DNA

Zebra DNA makes it easier to setup, secure, manage and optimize your Zebra devices. And with Zebra DNA Cloud, it's easy to deploy and manage all of your Zebra DNA tools.

Add New Functionality with Zebra's Proven Solutions

Enable mobile payment in record time with Zebra Pay — all certifications are included. Turn these devices into a mobile-driven workstation or a complete POS with Workstation Connect and a Connect Cradle. With Workcloud Communications, you can add two-way radio functionality over Wi-Fi and cellular networks and PBX handset functionality, complete with a custom interface that makes it easy to execute even the most complex telephony features.
