Handshake 3-Mode Vertical Mouse

An entry-level vertical mouse for left- and right-handed users.

Ergonomically familiar. Technically refined.

The Handshake Mouse allows you to work with your arm and wrist in a neutral position, preventing physical discomfort. The Handshake Mouse offers a natural hand position and is equipped with additional features for greater ease of use. The DPI button allows you to switch effortlessly between different cursor speeds so you always have the right precision for your work. The handy back and forward buttons make navigating web pages and documents faster and more intuitive. You can also connect easily via Bluetooth, with a dongle, or wired when charging!

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
