EAN: 4250078164883

Product Code: 1510118

R1,419

Quadruple performance

If all USB 3.0 ports are occupied, but you need the data from the USB stick urgently, this candidate could be very helpful. A USB 3.0 port on your computer is expanded into four additional USB ports and they can be placed in more accessible locations, like your desk. Furthermore, all USB ports comply with the battery charging specification (BC 1.2) to quickly recharge mobile devices.

Quadruple saving

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

All ports can be switched on and off individually during operation without interrupting the function of the other ports. As a result, a considerable amount of electricity can be saved in the long term.

Really friendly

Due to the use of aluminum as a light, good-looking material, the IB-HUB1405 is always nice to look at and at the same time robust enough, if something goes rough.
