

i-tec USB-C Extension Cable (30 cm)

Model: C31EXTENDCBL

Manufacturer: I-TEC

EAN: 8595611702518

Product Code: 1510599

R825

If your USB-C cable on your current device is too short for your needs, you can use our extension cable to enlarge your work area by 30 cm.

This USB-C extension cable is of high quality, with minimal loss of signal quality and bit rate and, of course, can do everything you can expect from USB-C:

Supports up to 10 Gbps baud rate

Video transmission up to 4K / 60 Hz

Supports power supply up to 60 W

The material used for the extension cable is highly bend- and strain-resistant and will be available for your everyday use not just at your desk but also when travelling.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
