

LogiLink UA0341 card reader SATA Internal Black

Model: UA0341

Manufacturer: LOGILINK

EAN: 4052792053005

Product Code: 1511005

R1,438

Product information "5,25" multifunction front panel, with 6-way card reader" from LogiLink

With LogiLink's multifunction panel, you can quickly and easily expand your computer's connection options: you can now insert 6 different card types into the corresponding card slots, such as M2, MS, SD, microSD, XD or CF cards, and transfer their data. There are also three USB 3.0 Type-A, one USB Type-C, and one eSATA port to which you can connect additional devices. The multifunction panel can easily be mounted in the 5.25" front panel of a computer housing, giving you additional connection options.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
