

InLine wall mount, for monitors up to 69cm (27"), max. 15kg

Model: 23107D

Manufacturer: INLINE

EAN: 4043718299911

Product Code: 1512059

R1,270

Space-saving wall mounting: The mount is ideal for installing monitors up to 27" directly on the wall – perfect for professional working environments.

Flexible positioning of the monitor: Thanks to the swivelling arms and rotatable VESA plate, the screen can be precisely adapted to the room situation.

Integrated anti-theft protection: The design allows the use of a padlock and thus offers security for publicly accessible installations.

Practical cable hook: An integrated hook on the holder allows the connection cables to be neatly tucked away for greater organisation at the workplace.

Quick and secure mounting: The VESA plate can be slid in, allowing the monitor to be mounted quickly or removed if required.

The InLine® wall mount (item no. 23107D) is a professional solution for space-saving mounting of

monitors with a size of 13 to 27 inches and a weight of up to 15 kg. The mount is made of high-quality aluminium and is securely mounted to the wall with just three screws. Thanks to the swivelling arms and the tiltable and 360° rotatable VESA plate, it offers maximum flexibility when aligning the monitor - ideal for workstations with changing requirements or limited space. A special feature is the integrated anti-theft protection: only a standard padlock is required for use. This makes the mount particularly attractive for use in public facilities such as schools, authorities or conference areas. The VESA plate is not only rotatable, but can also be pushed in – this enables quick installation or a quick device change. An integrated cable hook helps to ensure that connection cables can be neatly routed - for a tidy overall appearance. The wall mount supports the VESA standards 75x75 and 100x100 and offers maximum flexibility for your projects with a wall clearance of 88 mm and a swivel range of +60°, a tilt of +15° and a screen rotation of +180°.

VESA compatibility: 75x75, 100x100

Wall distance: 88 mm

Tilt range: +15° to -15°

Pivot range: +60° to -60°

Screen rotation: +180° to -180°

Suitable for screen sizes: 13" to 27"

Max. Load capacity: 15 kg

Material: aluminium

Fastening: 3 screws

Theft protection: lock optional

Cable management: integrated

Insertable VESA plate: yes
