In the beauty salon the dog, cat and horse get a thorough scrubbing. You can use the water pump to pour real water into the basin. Then, using blue and pink finger paint, you can draw beautiful patterns directly onto their coats. They won't even smudge when you stroke your pet. The next time you visit the salon, you can wash them off and create brand new patterns.

In the beauty salon, the pets can enjoy a real pampering. While the dog and cat are still sitting in the waiting room, the horse's coat is already being washed with real water. The old styles are thoroughly removed to get the horse ready for its new look. Then you can really get down to work in the hairdressing salon. You can braid and embellish the brushable mane with the comb. The beautiful hairstyle can then be decorated with hair clips the way you wish. But that's not all: Maybe the coat itself also needs a makeover? Imaginative patterns can be applied onto the coat with paint made especially for that purpose. On the next visit, you can simply wash them off and make room for something new!
