R4,634

The demands of streaming, gaming and everyday office life combined in just one monitor mount. Ergonomic, functional and tidy - this is how desk work is done today!

Better ergonomics at your workstation and while streaming

After the last streaming session or the hour-long call you just finished, does your head hurt, your neck feel stiff and your back also ache? Then it's high time for an ergonomic workstation. And while most people think of a suitable office or gaming chair, they quickly forget that the correct positioning of equipment such as monitor, laptop, streaming light and camera also ensures a sitting posture that is easy on the neck and back. It's a good thing that the monitor holder for your streaming setup adapts to your individual needs with no fewer than four height-adjustable arms . So you can quickly and easily retrofit your desk ergonomically and are perfectly equipped for more hours at the PC or

laptop.

Monitor holder for streaming setup and office

Do you want to interact with your followers in the livestream studio or record the latest episode of your own podcast? Or are you more into Twitch and want to live stream the latest gaming session? Are you a vlogger and need a new reel or even a longer video for YouTube or Instagram? Or do you work in a classic office or home office and simply want to ensure better ergonomics at your computer workstation? With this universal mount, no wishes remain unfulfilled, thanks also to the included accessories.

Microphone arm, monitor arm, tablet holder and more

One or two monitors, tablet or micro, light or camera - the requirements for your workstation can change at any time. So simply rebuild the streaming arm as you need it!

One for all

Perfect for the next streaming or gaming session: whether webcam, microphone, smartphone or tablet, ring light or camera, monitor or laptop, there is room for a lot of streaming equipment on the four arms, making it ideal for bloggers, streamers, gamers and so on

Fully mobile monitor holder

For an ergonomic workstation: the streaming arm adapts to your personal requirements and posture. Whether you need stepless height adjustability, swivel and tilt functions, pull-out capability or portrait or landscape formats, this is how ergonomics works in the office and home office while gaming

2 monitors up to 32 inches and 8 kilograms

Space for two monitors: the monitor arms be used for all common screen sizes with a diagonal of 33 - 81 cm (13 - 32") and up to a weight of 8 kg per arm

Tripod ball head

Unusual recording angle: Streaming light or camera can be rotated and tilted thanks to tripod ball head - for the perfect streaming setup

Portrait and landscape format

Always the perfect recording position: Portrait and landscape format thanks to swivelling smartphone and tablet holder

Integrated cable management

For tidy workstations: Cable management guides the monitor cable tidily behind the screen, avoiding cable spaghetti and saving space. The cable guide also protects the cable against breakage thanks to strain relief

Simple assembly

Fast and straightforward desktop installation: The monitor holder is attached to the desk in an instant with the clamping screw. VESA makes installing the screen easier - first put the VESA plate on the monitor, then hook it in the screen holder, and you're done
