Product Code: 1513499

R7,841

Dominate the track with MOZA GS GT Wheel, the ultimate sim racing steering wheel. Experience luxury and comfort by opting between its Alcantara and Microfiber Leather construction. The stylish forged carbon fiber case ensures sturdiness without sacrificing aesthetics. With magnetic and photoelectric sensors, every motion is flawlessly captured. Enjoy the accuracy of its programmable mechanical keyboard buttons, and the seamless transitions provided by its customized quick-release offers. Keep control over your race with the RGB shift indicator and push your experience beyond limits.

300mm GT Wheel, Built for E-sports

The GS is MOZA's E-sports ready, GT style racing wheel. A full featured, 300mm sim wheel designed for maximum immersion, and no compromises.

Perforated microfiber leather

The MOZA GS V2P Perforated microfiber leather have a premium feel and classy taste compared with rubber.

Forged Carbon Fiber Frame and Paddles

Featuring a sturdy frame made of 5mm high-strength forged carbon fiber, enjoy a weighty feel and trusted reliability.

Dual Clutch System with Magnetic Shifters

The GS magnetic carbon paddles have a powerful weight to them, ensuring every shift feels satisfying. The lower clutch paddles are easily toggled between a single clutch or dual clutch mode, typically used in professional simracing titles such as iRacing and the F1 series.

All-aluminum Quick Release

Inspired by real racing wheels and precisely CNC machined with a lightweight quick release mechanism, the new MOZA GS V2P QR system offers the same industry leading QR performance at a reduced weight. It adheres to strict racing safety standards and has passed rigorous durability tests, ensuring top-tier performance.

10 Programmable Backlit Mechanical Keys

The GS sports 10 programmable mechanical keys, with a satisfying click to ensure you feel every change. The keys can also be customized in the MOZA Pit House App, with a choice of 8 different colors.

8-color RPM LED Light

The MOZA GS V2P Wheel features 10 high-brightness 8 color LED lights allowing full customization and offering an impressive 100 million combinations. With the added ability to customize the RPM indicator switch mode and timing, you'll have complete control over your racing setup.

Optimized, Ergonomical Design

A comfortable but firm grip gives the GS a true-to-life GT feel. Even in the face of MOZA's R21 torque, a driver has quick access to all adjustments they need to make in the heat of battle, with carefully placed joysticks, buttons and switches.

On-the-fly car adjustments are faster than ever with access to the thumb knobs and band switches. Make rapid changes to brake bias, traction control, engine maps, ABS and much more. The two joysticks allow for full menu navigation, meaning you can keep your hands on the wheel and never miss a beat.
