Product information "Magnetic 3-point smartphone holder for car air vent, black" from LogiLink

Get our ultimate smartphone holder for your car now. Our magnetic 3-point smartphone holder is the perfect solution to securely and stably attach your phone while driving. Thanks to the high-quality N52H magnets, you can easily attach your smartphone with one hand and it will stay firmly in place, even on bumpy roads. The 3-point holder provides additional stability and protection. This holder is compatible with devices ranging from 4.7" to 6.9" and from iPhone 12 onwards. Whether you're navigating, taking calls, or playing music - with our smartphone holder, you'll always have your phone securely in view without having to take your hands off the wheel.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
