The Ceramic Protection from PanzerGlass® is 5 times stronger than our previous best, capable of withstanding a 320 g steel ball dropped from 2.5 meters without breaking. Made from certified Japanese glass-ceramics by Ohara. It’s one of the most scratch-resistant materials in the world. The transparency of this screen protector is exceptional, thanks to Ohara’s nano-crystallization technology, ensuring your display remains crystal clear. Plus, the smudge-free coating reduces fingerprints and grease, keeping your screen pristine.

The premium Ceramic Hoops® camera lens protector offers the same top-tier durability and clarity for your camera lenses. Crafted with the same Japanese glass-ceramics, it provides robust protection against scratches and cracks, ensuring that your photos and videos are never compromised.

Installation is hassle-free. The screen protector comes with an EasyAligner that makes installation a breeze. Finish the look by clicking on the Hoops® and the Kickstand Case.

We don’t just care about trends, we care about the planet. Every case is made from recycled materials, and we back our environmental initiatives with transparent documentation, so you can trust our claims. When you protect your phone with CARE by PanzerGlass®, you’re also giving it the potential for a second, third, or fourth life—so you can pass it on to another phone lover who will cherish it as much as you do.
