Model: K60630WW

Manufacturer: KENSINGTON

EAN: 085896606307

Product Code: 1514028

R1,559

The Slim NanoSaver® 2.0 EQ Keyed Laptop Lock is ideal for securing ultra-thin devices. This laptop lock contains only 7.5g of plastic versus 36g in prior generation, equalling a 78% reduction in plastic*. The cable and lock body are crafted from stainless steel and it is delivered in Forest Stewardship Council (FSC®) certified packaging. The slim design allows your laptop to lie flat and stable, ensures full access to valuable ports, features a strong stainless steel cable and Slim Nano lockhead with 5mm keying system to thwart cutting and picking attempts. Each lock is precision-engineered to guarantee compliance with rigorous industry standards for strength, physical endurance and mechanical resilience. Anchors to desks, tables and other attachment points. Custom keying solutions include Keyed Different (K60630WW) and Master Keyed (K60631M) for IT administrators. With a 5-year limited warranty you can rest assured knowing that you are covered by Kensington - the inventor of the laptop cable lock. * Plastic removed from cable jacket, crimp cover, ferrule cover and key cover.

* Plastic removed from cable jacket, crimp cover, ferrule cover and key cover
