R3,444

The 75% gaming keyboard, elevated.

As the world's most customizable toolless mechanical gaming keyboard on the market5, the HyperX Alloy Rise 75 takes personalization to the next level. Not only can you hot-swap in key switches, but also magnetic top plates, badges, and more. All that customization is built onto its compact, solid frame and ultra-responsive 8k polling rate, giving you rapid keypress detection and more room. Out of the box, this keyboard features pre-lubed HyperX Linear Switches rated for up to 80 million keypresses1 as well as pre-installed HyperX PBT Keycaps. The 75% form factor is a great balance between compactness and function, providing dedicated arrow keys, navigation keys, and F keys. You'll also get an upgraded RGB experience courtesy of the ambient light sensor that auto-adjusts the brightness, 10 keyboard profiles saved directly to the keyboard, and powerful customization via HyperX NGENUITY Software. Get one step closer to your endgame with the HyperX Alloy Rise 75.
