hour of the day or night. Plus, all G-SYNC monitors offer accurate colors, low-latency HDR, and are rigorously tested for consistent quality and maximum performance.

MSI's premium MPG series is engineered for gamers who demand strong performance and sleek design. Each product showcases cutting-edge aesthetics and vibrant colors, reflecting MPG's commitment to exceptional design. With optimized configurations, MPG creates a visually striking and powerful gaming experience that leads the trends.

G-SYNC Pulsar

For more precise aiming and sharper, clearer gameplay, G-SYNC Pulsar utilizes variable frequency backlight strobing to deliver 4x effective motion clarity, together with smooth G-SYNC Variable Refresh Rate.

Stay Optimized for G-SYNC

MPG 272QRF X36 lets you easily update the firmware yourself. Get the latest version from NVIDIA to keep your G-SYNC monitor fully optimized and performing at its best.

Customize Your Color, Your Way

Fine-tune your visuals with advanced color customization features on G-SYNC monitors, giving you full control to match your style and preferences.

Aspect Ratio Options
with Pixel-to-Pixel Precision for Clarity
Supports a variety of aspect ratios and screen sizes, including the 25 mode with pixel-to-pixel scaling at 2368 x 1332, 1920 x 1080, and 1280 x 960 for uncompromised image clarity.

G-SYNC Ambient Adaptive Technology
Looks Great, Day & Night
G-SYNC Ambient Adaptive Technology utilizes a built-in light sensor to give you the option to automatically tune color temperature and brightness for optimal viewing at any hour of the day or night.

Console mode

The monitor supports Console Mode with VRR and ALLM for a smoother, low-latency console gaming experience at up to 120Hz. With built-in HDMI™ CEC (Consumer Electronics Control) technology, it can communicate with controllers, allowing them to wake the monitor and adjust modes tailored to different devices

The 4-way adjustable stand adapts to your setup and peripherals, maximizing limited space and creating a clean, spacious environment for competitive play.

Windows Dynamic Lighting Certification

The monitor has achieved Windows Dynamic Lighting Certification, enabling users to control and synchronize lighting effects across connected devices. Users can customize brightness, effects, and synchronization for a cohesive experience across compatible devices, ensuring seamless integration with Windows Dynamic Lighting.
