Key product features

- The nanoBLADE technology now allows freehand cuts even without clamping the workpiece
- Versatile sawing both inside and outside the house
- Easily performing quick and straight cuts

Other product advantages

- Sawing close to edges thanks to the new design, e.g. to cleanly cut off branches close to the trunk
- Easy, safe and quick saw blade change by simply opening the hatch, changing the saw blade and closing the hatch
- The new sawing technology is absolutely maintenance-free, requiring no oiling or sharpening of the saw blade
- The lithium-ion battery ensures that the saw is ready to use any time and anywhere. The battery is changeable, enabling it to be used in other tools in the Power for ALL System
