The mini-DisplayPort interface is a miniaturized version of the popular DisplayPort digital display interface. The mini-DisplayPort to VGA adapter provides the best sleek compatibility experience as it seamlessly enables interoperability with existing analog projectors and displays. The mini-DisplayPort to VGA adapter is standards compliant with the DisplayPort standard, and also is forward compatible with Thunderbolt. The mini-DisplayPort to VGA adapter allows you to connect to an extended display or work in mirrored mode with VGA projectors, commonly associated with VGA resolutions up to 1920 x 1200 @ 60Hz reduce blanking display resolution, so the same visual information that you see is viewed by your audience. The mini-DisplayPort to VGA adapter is color coordinated to be consistent with the superior ThinkPad experience.
