Verbatim 55329 3D printing material Polylactic acid (PLA) Silver 1 kg

Model: 55329

Manufacturer: VERBATIM

EAN: 023942553298

Product Code: 1518950

R1,584

Overview

PLA is an easy-to-print filament made of renewable plant-based resources. Verbatim PLA is made to a special recipe with high quality controls as standard. It is odourless with good post-printing workability, making it a wonderful all-purpose material for a wide range of applications including concept modelling and education.
