Lindy 2 Port Dual Head DisplayPort 1.2 KVM Switch

Model: 39306

Manufacturer: LINDY

EAN: 4002888393065

Product Code: 1519528

R5,271

The Lindy 2 Port Dual Head DP 1.2 KVM Switch is a powerful, compact solution for providing access and control over two dual head, DisplayPort equipped PCs using a single set of peripherals and displays. Four USB 2.0 ports allow for the connection and sharing of USB peripherals and storage devices between host PC's seamlessly.

Supporting the highest, practical, digital video resolutions up to 3840x2160@60Hz on two displays simultaneously, this switch is ideal for the most demanding office based tasks such as computer-aided design, videography, rendering and more, only made possible by its proficiency in outputting a combined resolution of 7680x2160.

Support for a wide-range of USB devices ensure maximum compatibility with existing keyboards, mice, headsets, printers and more, virtually guaranteeing integration of the switch in existing environments will be completely hassle-free. Female DisplayPort connectors provide flexibility and hands the user jurisdiction to use existing cabling in appropriate lengths.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Installation within new and existing set-ups is uncomplicated, thanks in part to its small form factor, as well as the pre-installed mounting hardware. An industrial, locking DC power connector provides peace of mind as accidental disconnections are almost impossible, perfect for mission critical medical or manufacturing applications.

Please Note: connection cables are not included
