Wallscanner D-tect 200 C Professional: Further information

Product Highlights

The D-tect 200 C Professional detects all common objects and illustrates them clearly, while making documentation easy. Equipped with Bosch Radar Technology and an improved user interface, it stands for safer and more precise construction work. Multiple views allow for conveniently choosing the best option for different applications, such as Spot View, that makes detection in hard-to-reach locations especially easy. To provide solid evidence, the wallscanner's innovative screenshot feature enables quick documentation.

Equipment & Application

The D-tect 200 C Professional supports both indoor and outdoor jobs, prevents damage during drilling, and measures concrete coverage.
