R7,586

Create pixel-perfect imagery with the high-end panel quality of the fully professional NEC M321 large format display. By focusing on customer needs while also offering professional reliability, the M series displays give customers a digital signage display lineup without all the costs. This M series display can support both landscape and portrait orientations while also containing an anti-glare panel to allow for easy readability for true commercial applications. The new product contains a full metal mechanical chassis, allowing for a more robust design necessary for commercial applications while maintaining the attractive aesthetics that allow the focus of onlookers to be on what matters – the message. Simple and targeted connectivity options allow customers to have the up-to-date options that they need while not having to overpay for excess and unused interfaces. The NEC M
