R885

Replacemen Blades 10 pc Professional: Further information

Product Highlights

Bosch Professional replacement blades are manufactured from durable S2 chrome vanadium molybdenum (CVM) steel with an extra-hardened cutting surface to cut through even the toughest materials. They are compatible with all Bosch Professional standard universal knives. The dispenser's slide-out mechanism ensures single blades can be safely removed from the packaging.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
